WARD BOUNDARIES.

The **FIRST WARD** shall comprise that portion of the city embraced within a line commencing at a point at the extreme north point of the shore at Coddington Point, then following the shore of Coddington Cove to a point opposite the centre of a straight prolongation of the road running northerly from Sunset avenue, then running through the centre of said prolongation and said road, through the centres of Sunset avenue, Coddington avenue, Malbone road, Warner street, Burnside avenue, West Broadway, Marlborough street, Thames street, and Long wharf, in a continuous line, to City wharf, then around and including City wharf, and taking in all the remainder of Long wharf westerly, and following the shore, including all the wharves and docks and Coasters' Harbor Island, to the point of beginning at Coddington Point.

The **SECOND WARD** shall comprise that portion of the city embraced by and within a line commencing at the centre of Marlborough street at the junction of West Broadway, running across Broadway, through the centres of Bull street, Kay street, Ayrault street, and Catherine street, in a continuous line, directly across Easton's Pond to the Middletown line, then following the Middletown line to Coddington Cove, and along the shore of said cove to the line of the First Ward, and along the First Ward line to the point of beginning at Marlborough street and West Broadway.

The **THIRD WARD** shall comprise that portion of the city, including the docks and wharves, bounded northerly on the said First and Second Wards, and southerly on a line commencing at the centre of Kinsley's wharf at the harbor, and running thence in an easterly direction along the centre of said wharf and the centre lines of Pelham, Spring and Mill streets and Old Beach road, continuously, and across Easton's Pond in a straight continuation of said centre of Old Beach road, to the Middletown boundary line.

The **FOURTH WARD** shall comprise all that portion of the city, including the docks and wharves, bounded northerly on said Third Ward, and southerly and easterly by a line beginning at the centre of Lee's wharf at the harbor, and running easterly along the centre of said wharf and the centres of Young, Bowery, and East Bowery streets to the Annandale road, then northerly along the centre of Annandale road and Bath road, and easterly again along the centre of said Bath road to Easton's beach, and along the sea shore at said beach to the Middletown line: provided that said south line shall run northerly from the centre of Young street, and around the number seven engine house back to said centre of Young street, so as to include said engine house in the Fifth Ward.

The **FIFTH WARD** shall comprise all the remainder of the southern portion of the city lying south of the Fourth Ward aforesaid, including the docks and wharves.

STREET DIRECTORY

—AND GUIDE TO—

SUMMER RESIDENCES.

(See also List of Summer Residents on page 369.)

GIVING the location of the Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect, taken from the official records.

From this list, the location of any number on a street, or the location of any public building, can be easily ascertained; as, for instance, wishing to know at what part of Broadway No. 220 is located, you look at Broadway, upon page 23, and find that Gould Street runs from 202, and Park Street from 226, showing that 220 would come on the left, between Gould and Park Streets.

When a street crosses another, numbers (or ciphers) are given on both sides; but when it begins or ends at that street, the number is given only on the side at which it intersects. Ciphers are used where no numbers exist.

Names of Cottage occupants are in Italic.

OPTICIAN Spectacles and Eye Glasses **DENHAM**
 at 276 THAMES ST.

11th YEAR.

ESTABLISHED
1882.

INCORPORATED
1885.

THE INDICATOR is issued monthly, *PRICE \$2.00 PER ANNUM*, contains matters of particular interest to all Insurance Companies, Agents and Brokers of Life, Fire, Marine, Accident and Plate Glass Insurance, Real Estate Agents, Banks, Loaning Offices, Book-keepers, Clerks, Capitalists, Lawyers, Physicians, Manufacturers and Business Men: It contains from time to time special articles from the pens of some of the ablest writers in the country on insurance matters, which alone are worth more than the subscription price; gives list of fires, amount of losses, the companies writing on the risks destroyed; etc.

"The Indicator" wages an unrelenting war on "undergrounders," "wild cats," and all "shady" proceedings. Every wide awake Insurance Agent should take it. Every business man should take it. Price \$2.00 per year.

One subscriber writes as follows, viz.:

"THE INDICATOR saved one of my patrons \$3,000 and put over \$100 extra commissions in my pocket; you may continue it indefinitely."

Another subscriber (a prominent banker and large property owner) writes:

"You may send me THE INDICATOR for another year. I would not be without it for five times its price. It has warned me in time of many unreliable companies. I think property owners should pay more attention to the class of companies their property is insured in, and keep posted concerning the companies whose policies they hold. Whenever I place any insurance I always try to secure the policies of the companies whose advertisements appear in THE INDICATOR, for I know they are reliable."

The aim of "The Indicator" is to uphold the genuine and expose and fight the shams of all kinds in insurance. Every agent representing an insurance company doing a legitimate, lawful business should subscribe for it. Address,

F. H. LEAVENWORTH PUBLISHING CO.,

MCGRAW BUILDING,

DETROIT, MICH.

Sample copy of THE INDICATOR sent upon receipt of 20c. in postal note, or stamps.

The Key to Success in Business.

By A. G. SCHOLFIELD,

Principal of Scholfield's Commercial College, Providence, R. I.

COPYRIGHT 1890. BY A. G. SCHOLFIELD.

The Intellectual Advantage to the Student of the Study of Bookkeeping, as it is Taught in Scholfield's Commercial College.

THERE is no study that one can take up and pursue for the same limited time, that combines as much in variety, and that can so effectually discipline the mind in reasoning from cause to effect, and that can so intellectually and effectually equip him, or her, for the various duties of life, as the study of Double Entry Bookkeeping under a competent teacher. This study secures to the student an easy, graceful and legible handwriting. This study compels its students to acquire a thorough knowledge of Commercial Arithmetic as a preliminary qualification for the study of Bookkeeping. This study in its practical details, as pursued in this college, also requires its students to write all the letters of business correspondence suggested by the business which is the subject of the students' lessons. Each student is required to write all these letters and to submit them for criticism and when corrected to copy them into his Book of Forms for future reference. The laws of business to which every person's business is subject more or less, in its conduct and its records, are also here taught in all their practical details in connection with Bookkeeping.

This study embodies not only the foregoing preliminary considerations, but it calls into requisition certain fundamental governing principles, a thorough knowledge of which the student must acquire before he can commence or pursue understandingly the study of either single or double entry. Intellectually equipped with a thorough knowledge of these elementary governing principles, the student proceeds alone, aided by a competent teacher withal, to solve understandingly in the Day Book, Journal and Ledger and auxiliary books, the various actual business transactions which are the subjects of the students' lessons in both Single and Double entry. So definite, clear and available, to satisfy any inquiry which may arise in the business they represent are these business records, made under our supervision, that the student becomes at once fascinated in pursuing this very interesting and most important branch of education.

Finally, the time having come when the net gain or loss in the business of the past should be ascertained, that business the records of which are rendered in conformity with correct principles and their subordinate rules; the student proceeds to perform this task by making a Grand Balance Sheet, which sheet combines a Trial Balance, a Balance Sheet and a Profit and Loss Sheet, his Grand Balance Sheet made from the Ledger constitutes a mathematical process by which both gross and net gain or loss in the business in the past is ascertained and proven beyond a doubt. The student having intelligently solved the profit and loss problem under consideration, proceeds to close the Profit and Loss account in the Ledger into the account or accounts to which it is subordinate. Having availed himself of the rare opportunity offered in Scholfield's Commercial College, for acquiring a thorough business education, and having under the guidance of the principal and his assistants opened a set of business

books in double entry, penned their records daily, weekly and monthly, solved every problem demanded of the Accountant from day to day, and closed the business into Profit and Loss correctly and understandingly, the student realizes for the first time that he holds the intellectual key to the science of double entry bookkeeping—the key to success in business and to a competency through life. What enterprising young gentleman or lady does not covet such an accomplishment?

Shorthand and Type-Writing.

Among the improved facilities in the prosecution of business, which American invention has developed during the last decade, is the American Type-Writer. During the year 1891, Fifty Thousand of these wonderful machines have been manufactured and sold in the United States. This large number of sales in a given time will doubtless increase annually, for years to come. Each of these machines will require an operator. At least ninety per cent. of these operators will be young ladies; hence, at least Forty-five Thousand young ladies per annum must qualify themselves to meet this demand in the United States for years to come.

In order to operate one of these machines practically and successfully, the operator must understand and practice in her work, shorthand writing. The necessary qualifications for the study of shorthand writing and its practical use in connection with type-writing are as follows: The student must understand Grammar, and must be a good speller. In order to utilize shorthand writing successfully in connection with type-writing, a knowledge of composition and punctuation is also required in the prosecution of this study. Besides the pecuniary advantage which must accrue to the practitioner in shorthand and type-writing, important intellectual advantages are gained by the operator, and a consideration and respect attained from the employer which none but a Shorthand and Type-writer, or Bookkeeper can command.

Furthermore, the expert Shorthand and Type-writer is not only always in the line of promotion, but her daily practice in the line of her profession opens to her wider fields of thought, the cultivation of which qualifies its subject for a large field of usefulness.

Such are the emoluments, intellectual tendencies, aspirations, and accomplishments of an accomplished and efficient Shorthand and Type-writer. Ladies, will you qualify yourselves for this honorable and remunerative occupation? The increased demand for Type-writers waits for your reply. Does the reader ask where can this instruction be acquired most effectually? We answer, it can be acquired most effectually in Scholfield's Commercial College, where Shorthand has been taught during the last thirty-six years and Type-writing has been taught during the last four years. Our machines employed in teaching Type-writing are in variety, five of the best makes known to the profession.

The facilities for providing situations for its graduates is not excelled, if equaled, by any other school in New England.

SCHOLFIELD'S COMMERCIAL COLLEGE,

174 Westminster Street,

PROVIDENCE, R. I.

Founded by its present proprietor, A. G. D. 1846, since which time this College has educated

TWELVE THOUSAND STUDENTS.

The branches of study here taught are Writing, Bookkeeping, Commercial Arithmetic, the common English branches, Shorthand, Type-writing, Mechanical Drawing, Painting in Oil and Water Colors, Commercial Law and Business Correspondence.

NO CLASSES.

Each student is favored with separate instruction. The superior advantages that the principal of this College possesses for securing to its student-graduates remunerative employment will be always cheerfully conferred on such students.

For further particulars call on or send for our College Circular, which will be forwarded by mail to any address.

A. G. SCHOLFIELD, Principal.

PURE WATER SUPPLY.

◁ ARTESIAN AND DRIVEN WELLS ▷

Prospecting with Diamond Drills for Minerals. Cement Tube Wells and Blasting. Testing for Building Bridge, Pier, and Dam Foundations.

SHAFTS FOR HYDRAULIC ELEVATORS.

Pumping Appliances, either Hand, Steam, Caloric or Wind Power Furnished and Set Up.

DRY WELLS DEEPEMED.

PUMPS TO LET. TORPEDO EXPLOSIONS.

We have the most complete and extensive outfit and the widest experience of any party in New England. With new and special tools we can sink or deepen Cement Tube Wells so that they will never go dry; have left twenty-six feet of water in a thirty inch tube. We can sink wells in ledge for one-half the price of blasting. We can show any Water Supply Committee 3,052,800 gallons of pure water per day being pumped from our wells. We will show one drilled well earning \$25.00 per day, one earning \$5.50 per day, one \$65.00 well earning \$180.00 a year.
